

The **Dedham Education Foundation** is pleased to announce that it is accepting grant proposals for projects that will enrich the educational opportunities of Dedham students. Last year, projects totaling over \$15,000 were funded by the Foundation.

Foundation grants will be awarded up to a maximum of \$750. The Grants Committee will consider proposals requesting additional funds for projects enriching large groups of students or cooperative programs involving more than one staff member, department or school.

Qualified projects may include activities designed to supplement or enrich the course of study consistent with the curriculum and for which budget funds are not available. Awards may be used for materials, supplies, equipment, educational games, speakers, admission fees, performances and expenses for projects. *Grants will not be awarded for staff salaries, stipends, travel, lodging or transportation for field trips.* Preference will be given to those requests that promote hands-on learning. Collaboration among staff is encouraged.

To apply for a grant, please complete the application on the reverse of this page. Answers should be clear and concise. The procedure by which grants will be awarded is as follows:

1. Applications ***MUST*** be received by the Grants Committee no later than Tuesday, October 25. Only electronic submissions will be considered. They may be sent to admin@dedhameducationfoundation.org.
2. All questions on the application form must be answered clearly. Please use an additional page if needed.
3. The Grants Committee will review each application and all applications will receive equal consideration.
4. The Grants Committee may request additional information from the applicants.
