DEDHAM MIDDLE SCHOOL – AUDITORIUM

PREP

*Prevention Resources and
Education for Parents*

Caron's Student Assistance Program presents **PREP**, *Prevention Resources and Education for Parents*, a program designed for parents and caregivers of children in middle school and high school. The program is facilitated by professionals in the field of addiction treatment.

Program Objectives:

- Provide information on current youth drug trends, such as vaping, and the dangers of use to the developing brain and body
- Empower parents and caregivers with effective communication skills when talking with their children about alcohol, tobacco and other drug use
- Review the importance of establishing clear rules and consequences at home regarding substance use
- Evaluate resiliency factors that help protect kids from substance use
- Provide local resources if addiction support is needed

Did You Know?

- Parents are the #1 influence on their children's lives.
- Many teens report they want their parents to talk to them about substance use, but many parents are uncomfortable with starting the conversation.
- Teens consistently identify "disappointing their parents" as a major deterrent of drug use.
