## Heather Schmidt

Hi, I'm Heather and I am a returning Link Crew leader. Besides Link Crew, I am a member of the Varsity volleyball team, student council, SADD club, student government, the Green Team, and National Honor Society. Outside of school I have a job at Dedham Health and Athletic Complex and I babysit up to 6 days a week. I love cooking, reading, traveling, hiking and shopping. You could say I'm a bit of an old lady! My favorite movies are The Blind Side and Monsters Inc. and my favorite books are the Fault in our Stars and The Hunger Games. I am a huge fan of country music, especially singers like Luke Bryan and Rascal Flatts. I love the color purple. If I could eat anything right now it would be buffalo chicken with a side of pickles. But I could eat almost anything with a little peanut butter on it. Noodles and Company is hands- down my favorite restaurant. Ulta, Marshalls, and Charming Charlies are my weaknesses. Who doesn't love cheap stuff and good deals? I have no pets but if I could get one I would get a St. Bernard; I love big dogs. The best vacation I have ever went on was when I went to Nicaragua on a mission trip. We helped do work at an orphanage and we got to play with the kids at the end of the day. It broke my heart to leave and I will definitely go back again. Upon graduating high school I plan on attending college (no idea where yet, hopefully somewhere in New York). I would love to major in either business or nursing. I want to be rich with a huge family. I love travelling so I hope to do more of it and go to places like Iceland and South Africa (Goals!). My favorite classes I have taken in high school so far are chemistry and English. Mrs. Pettey and Dr. Rouse are the two people that have helped me the most and supported me in all aspects inside and out of school. I am wicked excited about senior privileges next year and having a study for the first time. I am a little reluctant about taking such a heavy course load again next year but I know it will only benefit me in the long run. My favorite quote is "You're mad. Bonkers. Off your head... but I'll tell you a secret... all of the best people are," -Alice in Wonderland. This makes me feel like even if you aren't totally normal, at least there are other great people out there that aren't either.
