Link Crew: 1st Year

Language(s): English

Brianna Wright

Hi, my name is Brianna and I am a junior. I came to Dedham in 8th grade, I did not want to leave my old friends but once I met new people I liked it here. In the summer, I work at a summer camp through my church. I love working there and being with the kids. I've also played softball for 5 years. I also like to be with my friends and family, and do the youth group activities through my church as well as service projects, camps and other exciting things. My favorite colors are purple and blue. I'm not really an animal person, but I think dogs are so cute and I'm obsessed with Chipotle. Sophomore year I went to Spain and France with the school and I had an amazing time, even though I'm not all that fluent in Spanish but I did try many new things. I went to Florida as well and had fun at the amusement parks I love roller coasters. My favorite subject in school is science and I'm thinking about going into psychology and traveling a lot when I'm older. I also want to do a mission trip before I graduate from high school.
