1st Year**

Language(s): English

Ross Dillon

Throughout my two years in the high school, I've played sports every season. In Fall I play soccer, in Winter I do Indoor track, and in Spring I do outdoor track. I also spend a lot of time in community service, with over one hundred hours in two years. In school I love taking video production and live broadcasting classes, as well as History, English, and Graphic Design, which are all great classes. My interests are traveling places, writing, soccer, photography, and making videos. One of my favorite places to travel is New York City because there's always something going on and something to do there. I think the best thing about the high school is the opportunity it gives you to join sports, clubs, and take different classes in what you're interested in, and meet different people. My future plans are to attend a four year out of state school and find a career that's fun for me. I also would like travel around the globe, especially Iceland, which is a country I've always wanted to go to. I'm excited about the upcoming sports seasons, as well as being a Link Crew Leader this upcoming year!
