Leah Goffredo

Hi, my name is Leah Goffredo, I am in 11th grade and I was born in a Boston hospital. I attended Greenlodge Elementary school and I speak English and I take Spanish. I play soccer, basketball and track for the high school and outside of high school I play club soccer. I am also apart of the Interact Club and student government. Some of my favorite things in school are math class, lunch time and x block. Some of my favorite things outside of school are going to the movies, hanging out with my friends, listening to music, and going on vacation. My favorite color is aqua, my favorite food is popcorn, my favorite store is American Eagle, my favorite restaurant is CBS Scenes and my favorite song is *I Got This Feeling*. The best thing about the high school is the teachers. All the teachers are very willing to help all the students and they are so helpful and nice. They will stay after school to help you and they always help during classes whenever you have a question. The best vacation that I ever went on is the one vacation I go on every summer at the end of the summer. We go to Lake George with my grandparents and uncles for a week and it is so much fun. We stay at a resort on the lake and we go out to eat every night, go to downtown and play at the arcade, we go ziplining in the woods and so much more! In the future I am planning on going to college, getting a job, getting married and traveling. Next year I am very excited and nervous to become a junior because I'm making big life decisions and new classes, so I will be able to hopefully find out what I want to do in college.
