

## JAZZ ENSEMBLE

Jazz Ensemble is an audition group that meets after school as an extension of the band program. Any student who performs a jazz or rock instrument or sings is eligible to audition. Membership in the band program is recommended (but not required) for wind instruments or drums. The jazz ensemble studies and performs charts from a variety of jazz styles and periods, as well as rock and Latin genres. They also spend significant time studying the art of improvisation. Performances take place at school concerts as well as community events throughout the year.
