

Guitar Club

Advisor: Jeff Nilsen

Description: The purpose of the Guitar Club is to promote interest in music appreciation. It is both an instructional and social club where students come to discuss music and be exposed to the many styles of guitar. To achieve this, rudimentary music lessons will be provided for beginners who have never played guitar before to learn and practice techniques relevant to specific styles of playing. Advanced players have the opportunity to jam and/or help in instructing beginners. In addition, video performances of "guitar heroes" are screened.
