- To title the sections more specifically.

- size, it could be bigger
- The times that the library is open for people to use it. Also to have more books that older kids would be interested in.
- I would want comfier chairs!!!!!!
- the types of books
- It would be that the library has a wider variety of books
- I would change the times that the library is open. It seems like there is only a few times a day that you can go.
- more books
- allowing eReaders (AKA: Kindle Touch)
- I would improve the amount of time a class goes to it.
- more books
- bigger
- There is not a very big selection of books for entertainment or research. The library has too much space taken up by tables and chairs. It does not allow very much room for a good selection of books.
- More space for reading and having fun.
- nothing
- to have more books that attract my attention
- to have more books that attract my attention
- There should be some reccomendations for books to choose from that are interesting.

- more books and you would be able to talk a little louder without getting yelled at

- I would like to have more fantasy and science fiction books for pleasure reading.

- More books for different interests and more time to use the library.
- I don't know

And finally I would have one final smaller section and it would be The Best Books of the Year.
- more comfy seats
- possibly update the computers.
- More comfy seats.
- have more books
- getting more books for research
- It would be being able to find books easily.
- i would add many more books and make different sections for grade-based studies. By saying this i mean that there should be three parts of the non-fiction section and research for each grade (6th, 7th, and 8th) so that in those sections there would be research books

related to the studies of that grade. For example there could be book about the human body and cells in the 6th grade section because that is what they study in science. There could be books about ancient civilizations like mesopotamia for 6th because that is what they study in social studies in that grade. That is the one improvement that i would make if I could to the library.

- I feel as if the library needs to have sections in it aimed toward 6th, 7th, 8th, and advanced readers. This way each student could choose at what pace he or she wants to read a book or what level of a book he or she could read.
