Link Crew:

1st Year

Language(s): English

Megan Corrado

I've played on the varsity hockey team and varsity lacrosse team since freshman year. I joined the cross country team as a junior and also ran during my senior year. I work at Roche Bros in Westwood on the weekends. I am part of the National Honor Society and am the Vice President of the Class of 2015. Prior to the birth of Link Crew, I participated in the former freshman mentoring group, Peer Leadership. My favorite class is math because math because I like when I am able to find a definite solution to problems. I also have a love for science. I have been extremely appreciative towards the courses available to me at Dedham High School, and in total, I have taken five math classes and six science classes. My career at Dedham High School has also allowed me to take six AP courses. After graduating from Dedham High School, I plan to continue my education and attend college. Because of my love of math and problem solving, I plan to major in statistics when I attend college.
